Oasis séduit par sa beauté et attire abeilles, papillons et colibris, soutenant ainsi la biodiversité.

Notre populaire collection de dahlias LaBella®, reconnue pour sa polyvalence et son excellent rapport qualité-prix, propose désormais des options encore plus colorées. Découvrez la nouvelle LaBella® Grande Chocolat, une variété unique à feuilles foncées et à fleurs doubles, idéale pour les pots de 15 à 17 cm. Tout comme le chocolat, ces dahlias LaBella sont irrésistibles !

La série Petunia Tea™ continue d'évoluer avec des couleurs toujours plus vibrantes. Ses performances constantes à travers le monde prouvent qu'elle allie esthétique et fiabilité.

Qu'il s'agisse de produits issus de semences ou de boutures, nous soutenons pleinement nos programmes de sélection et les partenariats de confiance que nous avons bâtis.

Our Product Management team is testing our own genetics and breeding from partners to extend their technical knowledge for you. Improved product quality from unrooted to finished product, tolerances to pests and diseases, reducing the usage of PGR's and extending the shelf and garden life are the four main research targets. The application of modern breeding techniques is the key to success at Beekenkamp Plants today. Investments are based on a clear vision of the future needs of all the links within both contemporary ornamental horticulture production as well as in the supply chain.

Test locations in different parts of the world are very important to us, as it is Beekenkamp's goal to provide the consumer with the best product available in their climate zone. It also allows us to monitor the effects of our genetics in different growing circumstances. Beekenkamp Plants' comprehensive cultivation database contains extensive information from all over the world, taking each and every growing situation into account. All this, in order to provide you with the latest advice and information. The Marketing team is lucky enough to draw inspiration from the whole chain including the consumer. If you would like any visuals or designs please contact our office. Our experience in working in partnership is what makes it successful, but it takes time to develop. It is evident that the most successful partnerships have built upon a long history of collaboration. The Marketing department, where Sales, Product Management and Breeding, come together in order to see how we can assist you in the best way.

Know that you are invited at any time to our premises in the Netherlands where you can feel free to take a look at our shelf-life testing room or trial garden. Or visit the Beekenkamp Inspiration Center, make an appointment all year round both online and offline.

Ons Product Management team test onze eigen genetica en teelt van partners om hun technische kennis voor u uit te breiden. Verbeterde productkwaliteit van onbeworteld tot afgewerkt product, tolerantie voor plagen en ziekten, vermindering van het gebruik van PGR's en verlenging van de houdbaarheid en de levensduur in de tuin zijn de vier belangrijkste onderzoeksdoelstellingen. De toepassing van moderne veredelingstechnieken is vandaag de dag de sleutel tot succes bij Beekenkamp Plants. Investerings zijn gebaseerd op een duidelijke visie op de toekomstige behoeften van alle schakels binnen zowel de hedendaagse sierteeltproductie als in de toeleveringsketen.

Testlocaties in verschillende delen van de wereld zijn erg belangrijk voor ons, want het is Beekenkamp's doel om de consument het beste product te bieden dat verkrijgbaar is in hun klimaatzone. Het stelt ons ook in staat om de effecten van onze genetica in verschillende groeiomstandigheden te volgen. De uitgebreide teelt database van Beekenkamp Plants bevat uitgebreide informatie van over de hele wereld, waarbij rekening wordt gehouden met elke teeltsituatie. Dit alles om u van het laatste advies en informatie te voorzien. Het marketingteam heeft het geluk zich te laten inspireren door de hele keten, inclusief de consument. Neem voor afbeeldingen of ontwerpen contact op met onze marketing afdeling. Onze ervaring met het werken in partnerschap is wat het succesvol maakt, maar het kost tijd om te ontwikkelen. Het is duidelijk dat de meest succesvolle partnerschappen zijn gebaseerd op een lange geschiedenis van samenwerking. De afdeling Marketing; waar de afdelingen Verkoop, Productontwikkeling en Veredeling samenkomen om te kijken hoe we u het beste kunnen helpen.

We willen u graag laten weten dat u altijd van harte welkom bent in Nederland. U kunt gerust een kijkje komen nemen in onze houdbaarheidstestruimte of de Trial garden bezoeken. Ook nodigen we u uit om ons Beekenkamp Inspiration Center te ontdekken, waar u het hele jaar door zowel online als offline afspraken kunt maken.
